## SUMMARY

---

Motivated and detail-oriented software developer with a strong foundation in computer science principles and hands-on experience in programming languages such as Python, Javascript, Php. Skilled in problem-solving and eager to apply academic knowledge to real-world software development projects. Quick to learn new technologies and passionate about contributing to team-driven development processes. Seeking an opportunity to grow and develop professionally in a dynamic tech environment..

## EDUCATION

---

**Bachelor of Technology in Computer Science Engineering** 2020 - 2024

Mar Baselios Institute of Technology and Science, Nellimattam, Ernakulam, Kerala, India

Cgpa : 6.65

**Higher Secondary Education** 2018 - 2020

MAR ELIAS HIGHER SECONDARY SCHOOL, Kottapady, Kerala, India

PERCENTAGE : 85 %

**High School Education** 2017 - 2018

MAR ELIAS HIGHER SECONDARY SCHOOL, Kottapady, Kerala, India

PERCENTAGE : 94 %

## CERTIFICATION

---

**1.Future Optima IT Solutions Pvt Limited** **Kochi, Kerala**

***Data Science Internship*** **July 2024 – JAN 25**

- Performed data cleaning, preprocessing, and feature engineering on large datasets using Python (Pandas, NumPy) and SQL.
- Analyzed business problems using exploratory data analysis (EDA) and visualized insights using Matplotlib and Seaborn.
- Deployed machine learning models in production environments and monitored performance over time..

## WORK EXPERIENCE

---

**Mdigitz Soft Solutions** **Kochi, Kerala**  
**NOV 2024 – July 2025**

### Software Developer Trainee

- Contributed to the design, coding, and testing of Website, utilizing programming languages and technologies such as Python, HTML/CSS, Javascript, Php React, etc..
- **Learned new technologies:** Gained hands-on experience with frameworks like Laravel, Django and worked on Javascripts library like react.js.

# PROJECTS

---

## 1.BICYCLE RENTAL WEBSITE

- **Frontend Development (React.js):** Designed and developed the user interface using React.js, ensuring an interactive, responsive, and user-friendly experience.
- **Backend Development (Laravel):** Built the backend API using Laravel, managing user data, rental transactions, and bicycle availability.
- **Database Management (MySQL):** Designed and optimized MySQL database to store and manage user information, rental history, and bicycle details.

## 2. Fall Detection and Remote Monitoring for Elderly People

- **Frontend Development (React.js):** Designed and developed the user interface using React.js, providing a clean and intuitive interface for caregivers and family members to monitor elderly individuals.
- **Backend Development (Laravel):** Built the backend using Laravel, handling user authentication, data storage, fall event notifications, and real-time data integration with IoT sensors.
- **Real-Time Fall Detection Alerts:** Integrated a real-time alert system that immediately notifies caregivers and family members when a fall is detected. Used WebSockets for real-time communication between the client and server, ensuring instant alerts.

# TECHNICAL SKILLS
